In accordance with Rule 41 of the General Medical Council (Fitness to Practise) Rules 2004 the hearing was held partly in public and partly in private.

### Overarching Objective

Throughout the decision making process the tribunal has borne in mind the statutory overarching objective as set out in s1 Medical Act 1983 (the 1983 Act) to protect, promote and maintain the health, safety and well-being of the public, to promote and maintain public confidence in the medical profession, and to promote and maintain proper professional standards and conduct for members of that profession.

### Warning

The Tribunal determined to issue the following warning in accordance with Section 35D(3) of the Medical Act 1983 and Rule 17(2)(m) of the Rules. It determined to impose a warning on Dr Nigate's registration in the following terms:

"Dr Jonathan Nigate, you have admitted and it has been found proved that:

That being registered under the Medical Act 1983 (as amended):

1. On or around 6 July 2023 you submitted an application for provisional registration ('the Application') with the General Medical Council ('GMC') to the GMC, and you answered 'No' to the question 'Has a medical school or university raised concerns about your professionalism or behaviour, that led to a formal process?'.
2. When you submitted the Application you knew that Brighton and Sussex Medical School were investigating an allegation against you for plagiarism for which you were due to attend an Academic Misconduct Investigating Panel Interview on 7 July 2023.
3. On the dates set out in Schedule 1, the GMC wrote to you requesting that you provide your completed Work Details Form ('WDF') and you failed to provide your fully completed WDF to the GMC in a reasonable timeframe.

The Tribunal determined that your misconduct breached paragraphs 71a and 73 of GMP. Whilst these failings in themselves are not so serious as to require any restriction on your registration, it is necessary in response to issue this formal warning because the misconduct risks bringing the profession into disrepute and must not be repeated. This warning will be published on the medical register in line with our publication and disclosure policy which can be found as [www.gmc-uk.org/disclosurepolicy](http://www.gmc-uk.org/disclosurepolicy) "
